COSSIGA

Our business in a nutshell

At Cossiga we specialise in making food look great... globally!

ABOUT US

Cossiga is about making food look great. We design, manufacture and distribute globally, high-end, stylish, hassle-free food presentation equipment.

Because we are passionate about designing food display and food environments we continuously innovate and improve our design edge, technology and systems to offer an unmatched 360° package.

We achieve this by having our own manufacturing facility in China and rock-solid distribution, logistics and after-sales support provided by our trusted global network. Inspired by our New Zealand ethos, we operate with full transparency and with an open, fresh can-do attitude.

We look forward to working with you to make food look great, **together!**

COSSIGA IN CHINA

OUR PLANT

Being fully in control of our value chain allowed us to secure our path to global growth. Cossiga's smart facility in China is a serious little plant where big things happen.

Located in Foshan Guangdong (China) our plant is managed by our hand-picked team of local experts, all with a strong background and specialised knowledge in the food equipment manufacturing sector. Cossiga's plant has been designed to allow for maximum production-line flexibility. This enables the operations team to easily switch between our customers requirements which optimises manufacturing lead times and accommodates large or small runs.

Thanks to this we can cater the world with what we are well-renowned for: stylish, hard-working and great-value food display cabinets that make food look great.

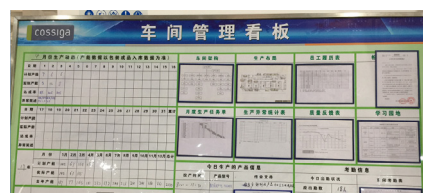

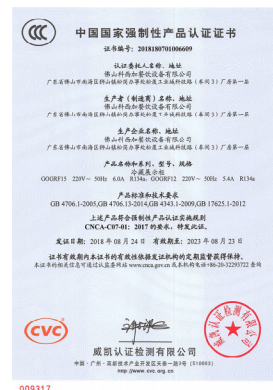

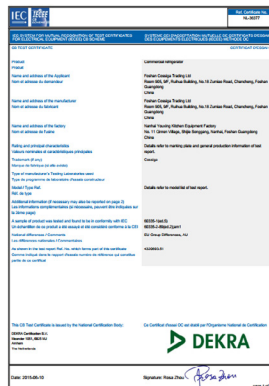

QUALITY, SAFETY AND CERTIFICATIONS STANDARDS

According to the GB/T19001:2015 & ISO 9001:2015 Quality Management System Standard, our manufacturing plant strictly implements the content of the Quality Manual and offers reliable quality assurance capability.

The quality system is implemented across all functions across the supply chain. This translates into having everything tested for safety, performance, and finish. All equipment is serialized for total traceability.

We have advanced testing equipment to ensure all safety standards are adhered to. Our products also use the latest environmentally friendly refrigerants.

Our equipment is certified to meet all local compliance for the markets we sell to namely CCC/CE/CB/SAA.

CORPORATE ROLLOUT READY

Cossiga are experts in corporate rollouts offering a global solution tailored to individual needs.

With our global partners we go 'beyond' to offer you a fully integrated solution!

RESOURCE & DISTRIBUTION FOOTPRINT

From our Head Office in New Zealand, our manufacturing facilities in China, and established operations in Australia and the UK, we offer a truly global reach!

Our philosophy is to be 'Glo-cal', this means to offer the benefits of an efficient global operation and support partner network yet at the same time provide a deep local understanding of each individual market we are in with knowledgeable and respected representatives.
