

**The world's best
ice, clearly.**

2018 PRODUCT CATALOGUE

Perfect ice. Every time.

Hoshizaki is considered to be one of the world's leading manufacturers of ice makers, with over 60 years of creating the world's best ice. Our superior reliability ensures customers can depend on our ice machines day in, day out, year after year. Hoshizaki ice machine parts are precision engineered exclusively for each ice maker to further enhance the most efficient operation. Our product engineering, manufacture quality control and quality of internal components are what make Hoshizaki ice machines the industry standard.

**Up to 3 year warranty
on entire range.**

**Clear,
hard ice.**

**Removable,
cleanable filters.**

About Hoshizaki

Founded in 1947 in Nagoya, Japan, Hoshizaki has grown into a global company delivering reliable, innovative commercial products to the world. Our approach to solving commercial needs resulted in us designing and developing some of the world's most revered ice machines.

Our Range

Hoshizaki ice machines effortlessly achieve outstanding levels of efficiency. Their design and component parts are built with a global market in mind, no matter the environment, reliability comes as standard.

Cube SERIES

Perfect for any drink, our cube-shaped ice is flawlessly crafted to ensure the best quality product for your venue.

Our machines utilise the latest smart computer board technology to manage cycle time, protecting the machine and reducing costly service bills.

These clear, hard ice cubes melt slowly, allowing customers to enjoy their cooled drinks for longer.

Flake & Nugget SERIES

Used throughout a variety of industries, including medical, food, and hospitality, Hoshizaki flaked ice cools more quickly and moulds around products better than other ice types.

All of our Flaked ice machines can be converted to dispense nugget ice prior to delivery whilst still maintaining the sleek, enduring design known to Hoshizaki products.

Crescent SERIES

Unique to Hoshizaki, the crescent ice is formed on our recently updated KM Edge Evaporator, enhancing the efficiency of the ice-making process and therefore saving power.

The ice is designed not to bridge or cluster in the storage bins, and is the perfect product for any venue.

Cycle Saver technology and an Evercheck control board manages any trouble shooting and correct operation reducing downtime and maintenance.

Ice & Water SERIES

Cublet ice is soft and easy to chew, making it perfect for the drinks served in healthcare, hospitals, offices, factories, schools and cafeterias.

Our machines allow for both water and ice options with easy to operate push-buttons, and is designed for busy environments with little space, whilst still offering high standards of hygiene.
