Indigo NXT Series iT1500 Ice Machine on D970C Bin

Designed for operators who know that ice is critical to their business, the Indigo NXT Series ice machine's preventative diagnostics continually monitor itself for reliable ice production. Improvements in cleanliness and programmability make your ice machine easy to own and less expensive to operate.

- New Levels of Performance - Showcasing an average of 6% lower energy consumption, up to 9% increase in ice production and a 9% reduction in condenser water usage. This translates into lower cost of ownership over the life of your machine.
- easyTouch® Display - New icon based touch screen takes the guess work out of owning and operating an ice machine.
- Multiple Language Capability - The easyTouch display is available in multiple languages selected in the initial start-up installation Wizard.
- Programmable Ice Production - Now its super easy to program your ice machine to be off at certain times of the day to save money with fluctuating electrical rates. Also programmable by daily ice production volume.
- Easy to Clean Foodzone - Easy Access front door panel. Removable water-trough, distribution tube, curtain, and sensing probes for fast and efficient cleaning. Select components made with AlphaSan® antimicrobial.
- Intelligent Diagnostics - Provides 24 hour preventative maintenance and diagnostic feedback for trouble free operation.
- Acoustical Ice Sensing Probe - Unique patented technology allows for reliable operation in challenging water conditions and environments.
- Available LuminIce® II Growth Inhibitor - Controls the growth of bacteria and yeast within the Food zone keeping the machine cleaner longer. A new indicator in the display keeps you abreast of the operational status.
- Top air discharge.
