*Suitable for cold water supply although to avoid excessive delays between cycles a 1p/25A or 3p/15A power supply is recommended.

^Upgrade kit available to enable switchable inlet water and on-demand selection of polish-free mode using cold RO water (requires a Starline ROC), and high capacity mode using a standard hot water feed.

Isolating switch must be within 1m of, and not directly behind, the machine. Refer to operator manual for installation instructions.
