

Guardian Safe

A non-caustic non hazardous liquid machine ware-washing detergent. Its unique formula removes the toughest soil from your dishware without the use of either caustic or chlorinated ingredients. It is effective in soft or hard water conditions and will inhibit scale formation on both machine and utensils. The free-rinsing formulation will remove all stains from glass without leaving any streaking. It can be used in both high and low temperature machines and is safe on soft metals such as aluminium.

Removes the toughest soils

Effective in all water conditions

Sparkling dishes & glasses

One pass results

Non-Caustic & Non-Hazardous formula

Dispensing eliminates staff contact

Eliminates tough stains

Use with high or low temperature machines

CLEANER. SAFER. HEALTHIER

ECOLAB[®]

Guardian Safe

Use Instructions

1. Your Ecolab specialist will install a dispenser and adjust it to automatically dispense the proper amount of product.
2. To load product onto the dispenser, carefully remove the product drum probe from the product container and keep probe upright to avoid spills.
3. Remove cap from the new container and use it to seal the empty one and then dispose.
4. Insert product probe into new container and restart the machine. Product will self prime and dispense on next cleaning cycle.

Safety Information

Keep container tightly closed and in a cool, well ventilated area. For further information and safety instructions see product label and Safety Data Sheet.
