

Lime-A-Way

Lime-A-Way is a heavy duty lime scale remover for use in industrial dishwashing machines and equipment. Lime build-up in dishwashing machines reduces washing and rinse efficiency and increases energy costs. Regular use in hard water areas maintains maximum efficiency. Lime-A-Way is perfume-free, non-foaming and does not contain hydrochloric acid. It can be used in housekeeping, food & beverage operations and laboratories.

Safe on professional machine components

Minimizes areas for micro-organism development

Effectively remove scale buildup and iron stains.

CLEANER. SAFER. HEALTHIER

Lime-A-Way

Direction For Use

DE-LIMING DISHMACHINES: Switch off detergent dispenser. Drain tank and refill to 5 cm below overflow. Turn tank heaters on. Add 1 - 3 litres of Lime-A-Way, depending upon scale, and size of machine, and run machine until scale is removed. Apply Lime-A-Way full strength where spray does not reach. Drain tank and refill. Run machine for 2 minutes, open drains, rinse with potable water, close drains and refill machine.

DE-SCALING COFFEE URNS: Fill urn with water and heat. Add 10 mL of Lime-A-Way per litre of hot water. Let stand for 15 minutes, then drain and rinse thoroughly with potable water. Consult your Ecolab specialist for other specific use directions. Do not mix with anything but water.

Safety Information

Keep out of reach of children. Wear suitable protecting clothing, gloves/face protection when handling the product. Do not mix with anything but water. Before using this or any other product, make sure your employees read and understand the product label and Safety Data Sheet.

Storage conditions:

Keep container tightly closed. Keep container in a cool, well-ventilated area.
