

Solid Lime-A-Way

A safe and convenient format for regular deliming that removes hard water deposits and lime scale from dishmachines above and below the waterline. Solid Lime-A-Way™ features a powerful deliming formula available in solid technology.

Solid Lime-A-Way™ powers through stubborn rust & iron stains and reduces replacement costs by extending the curtain and heating coil life. Solid technology eliminates coming in contact with the chemical and each application contains the exact amount needed for dishwasher deliming.

Effectively removes scale build up

Light weight and conveniently packed

Fast & effective lime-scale & iron removal

Patented solid technology eliminates chemical spills

Reduces energy & replacement costs

Dosed for consistent results

Safe on professional machine components

Improves dishwasher rinse efficiency

CLEANER. SAFER. HEALTHIER

ECOLAB®

Solid Lime-A-Way

Use Instructions

1. Check product label and Food Safety Plan for detailed use information.
2. Wear suitable protective clothing when handling the product (Safety Gloves and Glasses).
3. Lock out detergent hopper (open lid / programming) - Do not dose detergent during delimiting process.
4. Empty water and take out remaining dishes. Refill machine with hot water (60 °C).
5. Dose 1 block of Solid Lime-A-Way in the wash tank of the dishwasher.
6. Start the machine and let it run for 10 - 30 minutes.
7. Stop and drain the machine (Ensure you are wearing your correct PPE).
8. Rinse with clean water.
9. Refill the machine with fresh water. Start the machine again, let it run for a short time.
10. Turn on the detergent dosage system back on.
