

Refrigerated Back Counter

Product Features:

- Digital controller, automatic defrost
- Stainless steel door panels enclosed refrigerated cabinet
- Refrigeration compartment is easy to maintain and replace
- Front facing condenser and evaporator pan drawer for easy maintenance
- Forced-air, evaporated-coiled system
- Adjustable height wire racks
- Height adjustable bullet feet
- Front kick-plate as standard
- Comply with GB, GEMS and (EU) 2015/1095 Energy Standards
- Built for Tropical Climate of 43°C and Climate Class 5
- 🌿 Super saver INVERTOR technology with R290 hydrocarbon refrigerant available as an option

COLD
