Use your own pitchers

No costly exclusives — Arlatte® detects pitcher size and drink volume automatically. With any milk.

Automatic purge

The wand cleans itself after every cycle. Schedule your daily cleaning cycle. Press once, walk away.

Gain time with hands free

Let Arlatte® do the emulsion, you concentrate on your Latte Art or on your workflow.

Easy programming

Just set dairy or vegan — Arlatte® bringt the perfect temperature and steam. Up to 12 recipes!

Flexible setup

Plumb into the water line or use the internal tank. Perfect for cafés or events.

Energy smart.
Arlatte saves power by slipping into eco mode, and is ready again in secons.
