

HELIA SMOKER

electric food smokers with multifunction

HELIA SMOKER

made in Germany since 1983

The Original HELIA for professional,
commercial, hobby, in- & outdoor use

HELIA
SMOKER 

The top technology among electric smokers. Indoor & Outdoor.

HELIA SMOKERS are the groundbreaking technology among electric smoke ovens, they can be used anywhere. Just plug them in and you are ready to go... at any time!

Easy to use – method of operation

1. Pre-heating: Set the thermostat at the desired cooking temperature, the green lamp will go off as soon as the temperature is reached.
2. Fill the smoking-pan with sawdust/wood chips, moisten the chips and place it on the heating element inside the oven.
3. Put a grill on the drip-pan and bring it together with the food on the first rack, when required put another grill with food on the second rack and close the door according to the markings.
4. Switch on the timer to start/stop the smoking process, the red lamp lights
5. Set the signal timer for the recommended cooking time (see recipe book)
6. The cold smoking procedure is described in the instruction manual.

- All models are functional table top appliances and can be placed everywhere
- The door opens to the front thus it is no obstacle on the right or the left side
- No specific ventilation or installation directions
- Application under or nearby a simple fume hood is practicable, only small amounts of smoke escape
- A practical and affordable option for in-house authentic smoking
- Heating and cooking with thermostatic control – low and slow or high and speed...
- Smoking with automatic timer
- Cooking and smoking function separate (2 heating circuits) thus cook with or without smoke, or smoke with or without heat
- Equal upper and lower heat without ventilation thoroughly cooks your food to a consistent temperature and makes it extremely juicy, tender and delicious.
- Optimal distribution of smoke and the use of different natural woods create the most delicious and appetizing smoked food you've ever tasted.
- Energy saving of up to 60% because of double shell construction with double insulation for minimal heat loss and short pre-heating thus cost-saving
- All switches on the front side are easy to operate and user friendly and all parts are easily to change.

smart and convincing smoking

Technique

Models:

HELIA 24

230 or 115 Volt, 1500 Watt
45 x 35 x 45 cm (breadth x height x depth)
drip-pan 30 x 40 cm
weight 25 kg

HELIA 48

230 or 115 Volt, 2500 Watt
45 x 35 x 85 cm (breadth x height x depth)
drip-pan 30 x 80 cm
weight 45 kg

Standard accessoires

1 smoking pan
1 drip pan 30 x 40 cm
1 trout grill* 30 x 40 cm
1 flat grill* 30 x 40 cm
1 kg of sawdust, spice sample
recipe book with
operating instructions

Standard accessoires

1 smoking pan
1 drip pan 30 x 80 cm
2 trout grills*, each 30 x 40 cm
2 flat grills*, each 30 x 40 cm
1 kg of sawdust, spice sample
recipe book with
operating instructions

Capacity

24 trouts à 250g / 12 trouts à 500g
4 chicken, 7 kg of roast approx.

Capacity

48 trouts à 250g / 24 trouts à 500g
8 chicken, 14 kg of roast approx.

* simultaneous use of 2 trays
respective 4 trays

Interior and exterior walls as well as drip pan and grills are made of stainless steel

- 1 flat grill (for plaice, filet, meat)

2 fish grill (fish lies with the belly up)

3 drip-pan

4 door with special gasket

5 active light

6 thermostat (0° - 250° Celsius) for upper and lower heat
- 7 timer (0 - 15 min.) smoking process

8 signal timer cooking time

9 fish spice mixture (500 g)

10 beech sawdust (1 kg)

11 casserole (7 cm height)

12 smoking pan (with sawdust)

Highest standard of quality

Tested by the German safety standards authority TÜV NORD
Production following VDE and EN registration

HELIA
SMOKER

The advantages of HELIA SMOKERS compared to other smoking methods

- Fish and meat are not cooked directly by the heat of firewood or by infrared heat but by indirectly heated air inside the smoker chamber
- A special double lip door seal is used which makes the oxygen escape out of the oven chamber during heating and there is no additional ventilation thus there are no taste transmissions of different foods. A further positive effect of the special seal is a little under pressure occurring inside the smoking chamber which leads to fast cooking and fast hot smoking times and avoids drying out of food.
- The absence of air circulation and the under pressure make the food very tender and juicy.
- The absence of oxygen inside the oven makes the smoking process non-toxic. The sawdust is ignited by the extra heating element thus we have no burning flames with harmful particles of soot but only the pure filtered harmless smoke is set free.
- During the smoking processes the filtered smoke deposits on the interior oven walls. They get dark but don't worry about this – the darker the better the smoking taste. As this filtered smoke layer is no breeding ground for bacteria or germs you mustn't scrape it off or use chemical cleaning agents – only clean or wipe out the food residues and grease. The drip pan on the lower rack avoids residues on the bottom of the smoker.
- Extremely low follow-up costs as no need of added adapter units and special expensive smoking pads or briquettes.
- Compared to combi-steamers or convection ovens with added smoking function a better smoking quality and intensity, no loss of time because of long-during cleaning programs, more flexibility, more energy-saving and much lower purchasing costs.
- No time-consuming training of your staff because of easy-to-operate and user-friendly design.

Use our expert knowledge - it will be your profit!

How to profit from the HELIA SMOKER in your business

It's all about taste, flavor and quality and it's all about earning money and this is easily to do with a HELIA SMOKER. A HELIA SMOKER is the perfect tool for your creative kitchen and the key to your success.

YOU CAN:

- create a variety of special recipes also by doing experiments with different kinds of wood mixed with different spices, herbs, liquors etc.
- use the HELIA SMOKER to produce ready-to-serve smoked food or you use it to round-off and finish your dishes with delicious smoke and give it the final kick
- smoke (hot or cold) all kinds of foodstuff and make it to a particular specialty
- smoke indoor, outdoor and take it everywhere
- use the other multi-functions of the oven in case of not smoking and have it in permanent operation

To sum it up a HELIA SMOKER means:

- Continual competitive advantages
- Added value for you
- Diverse possibilities
- More flexibility
- A great deal with little effort
- Easily-earned money
- SUCCESS

multiple

- In every type of kitchen: professional, semi-professional and hobby
- In the HoReCa sector (Hotel Restaurant Catering)
- In pubs, beer-gardens, take-away restaurants, in canteens, cafeterias,
- In fish delicatessen shops, butcheries, supermarkets, health food stores, snack stands
- Behind deli counters
- In snack cars and food-trucks
- On weekly food market stalls, in market halls, at farmer markets, in the marquees
- On camping sites and in caravans, in ship galleys on cruise and excursion ships, in hunting lodges, in fishing and social clubs
- In testing and experimental kitchens
- In every place you like to create the most delicious smoked food possible...

always

up to date

Either pork shoulder, -neck or beef brisket. Due to long cooking time with low temperature the dissolving of the meat collagen fibres cause tender flesh which can be pulled into small pieces or even break into small pieces itself.

The HELIA SMOKER makes your meat cooked precisely and safely by low temperature and gives it your favorite smoke taste at the same time.

low & slow or high & speed

- Pulled Pork
- Beef Brisket
- Pastrami
- Ribs
- Chicken
- Potatoes

HELIA
SMOKER

HELIA SMOKER

Our multifunctional smokers are produced in our own factory. We work with modern machines and good skilled staff. From the stainless steel sheet to the finished appliance all components are assembled with great care and are thoroughly tested. As a result of continuous development based on feed back of the HoReCa sector as well as close cooperation with the professional associations of the fish and meat industry we can offer you state of the art smokers that meet the highest standards.

This has been attested by first class chefs from all over the world.

The multifunctional HELIA SMOKERS are utilized successfully worldwide since 1983. A reliable distributor network is steadily growing. Meanwhile you can find them in more than 80 countries.
