

WASHTECH®
PROFESSIONAL WASH SYSTEMS

**WS3 WASHER/SANITISER
WITH BEDPAN RACK**

EW41

Starline® by Washtech have developed a new model Sanitiser for use in Aged Care and Hospitals for bed pan cleaning and sanitising.

Made from heavy duty stainless steel for durability and longevity AND backed up by the very well-known Washtech quality and service its a great time to be supporting New Zealand Made products.

Supplied with a heavy duty stainless steel rack, purpose built for New Zealand bed pans.

**NEW
& IMPROVED**
Designed for the Aged Care industry

Updated wash chamber featuring an L-shaped tank

Easier cleaning of the tank. Makes an unpleasant job of cleaning, simpler and quicker for your staff.

Hybrid controls

Has its new highly customisable and reliable electronic timer, giving you maximum performance with limited downtime for repairs.

Customisable wash cycles

Makes the machine more adaptable and versatile. The first cycle can be shortened to do this in less time and using less water and chemicals. Which means it saves money on ALL THREE of these costs!

New detergent sensor and alarm with priming switch

For seamless, trouble free operation, taking one more worry away from you.

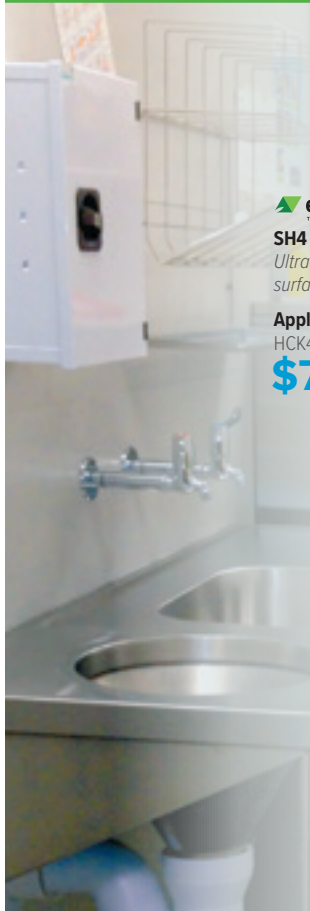

Stainless steel manufactured to suit the most demanding requirements.

**WHAT IS
MRSA?**

MRSA stands for:
*Methicillin Resistant
Staphylococcus Aureus.*

MRSA is a bacterial infection that is
resistant to many antibiotics.

It is one of the
healthcare
associated
infections that
occur in settings
where people
receive special care
for varied health
conditions like aged
care homes and
hospitals.

**Prevent the spread of
bacteria-causing infection by
using appropriate chemicals
and equipment**

DISPOSABLE GLOVES

**Vinyl Powder Free Gloves
(Box of 100)**

- Clear Medium DLR04
- Clear Large DLR03
- High performance protective gloves with extra grip
- Easy to get on due to excellent slippery inner surface
- Length: 240mm

**CLEAN HANDS COUNT
FOR SAFE HEALTHCARE**

On average, healthcare providers
clean their hands
LESS THAN HALF
of the times they should. That
means you might be leaving
yourself and your patients at risk
for potentially deadly infections.

Information from: www.cdc.gov/handhygiene

HANDCARE What you need:

A robust hand hygiene programme should be supported by a reliable and effective range of handcare to manage microbe and germ control.
