

Inspired by nature and using the skill of our local Potters, Temuka brings the latest designs in reactive glaze effects with two fabulous new ranges.

POTTERS MARK IN SEA SPRAY

Potters' Mark bowls and plates are made from hand-thrown original models. The potter's finger marks are embossed in the clay as they process the product on the potter's wheel. These marks create hold points, runs and pools in the hand-applied glaze finish. Sea Spray celebrates the beautiful erratic whitecaps we are often privileged to see on our western shores. A stunning reactive glaze that speaks of a depth and wildness while showcasing an exceptional level of class and craftsmanship. Also complimented by a selection of high sided Scandi pieces

WAVE IN TERRA

Inspired by our rivers and beaches, our iconic Wave design features undulating designs in the clay. These little ribs provide a rim border which accentuates the main event within. The Terra glaze on wave, brings in a textured earthy tone, with bold rims and little glaze runs, giving an authentic, natural warm presentation space complimented by a selection of high sided Scandi Shapes.

Freedom

Free from conformity, this range of asymmetric forms was originated by manipulating thrown forms, or simply by throwing down slabs of clay. The look and feel of this range comfortably combines retro and contemporary elements. Standard glaze effects echo the feel of '70's studio ceramics.
