# ABOUT COCKTAILS

## PROFITABILITY

**Cocktails have become a growing interest for Bars & Restaurants.**

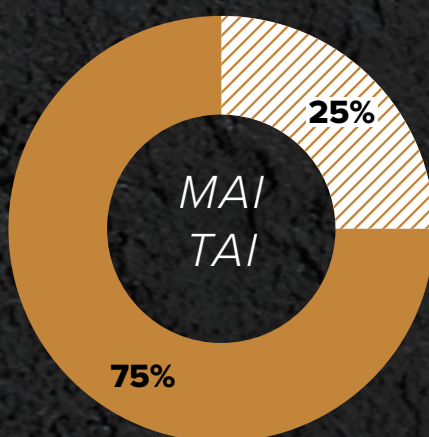

While being extremely attractive to customers, cocktails can also be a lucrative product to offer. They are hugely popular for customers because they are a unique, artisan product that can be challenging to replicate at home.

We have completed an analysis and collated information in some of the most popular cocktails on bartenders menus. A cocktail's profitability means the lower the pour cost = the higher the profit margin. Because of this, these cocktails yield a significant margin, making these extremely profitable drinks to offer.

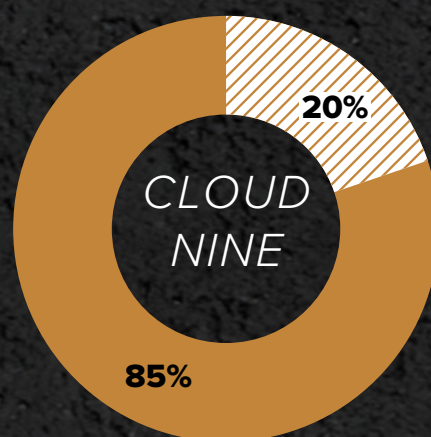

Featured inside this flyer are a range of recipes & products to inspire bartenders to create unique & profitable cocktails

Average Cost	\$20.00
Pour Cost	\$6.00
Gross Margin	\$14.00

Average Cost	\$22.00
Pour Cost	\$5.50
