

# Commercial china is designed for our industry.

- Domestic china characteristics—fired at low temperatures, brittle, minimal resistance to thermal and mechanical shock, susceptible to surface crazing. NOT suitable for commercial application. Limited supply continuity.
- Commercial china characteristics—Vitrified (fired at very high temperatures—up to 1200°C—which removes moisture, and allows no moisture absorption). Vitrification produces high density. This dense body provides:
  - Resistance to thermal shock (severe temperature change).
  - Resistance to mechanical shock. Protects particularly against edge chipping, and provides impact resistance.
  - The removal of internal moisture allows no bacterial growth on minor fissures. Complies with health regulations.

The application of commercial glaze provides resistance to dishwasher detergent, glaze scuffing, and metal marking.

Continuity of supply—an important component.

## Our China Package

*“Return on Investment” options*

- **Accolade**—Commercial china from the famous porcelain manufacturing region of Thailand—produced with an alumina-rich body, which provides increased strength to resist chipping. Some plates and bowls are pin fired with the usual benefits—fully glazed under-belly, light weight and slim profile for reduced storage space. **Accolade** satisfies a wide variety of applications—from the Classic styles designed for banqueting and functions, through to contemporary fine-dining options. Many items are covered by Conditional Lifetime Edge Chip Warranty
- **Tierra, Nero, Elements & Claystone**—Accolade’s coloured offering is inspired by hand-crafted country style pottery.
- **Temuka Pottery**—is a reliable, hardworking New Zealand icon that has stood the test of time. The NEW look is right on trend, with an organic, potted, hand-crafted presentation in contemporary textures and colours. It’s fully commercial—vitrified at over 1200°C which provides the usual commercial features of edge strength chip resistance, heat retention, and resistance to dishwasher chemicals and oven heat.

The glazes are fired to become part of the body and will not craze in normal conditions.

## Style & Class Options

- **Baralee**—commercial Porcelain from Thailand. Designed with an Asian theme and fine edge, but chip and scratch resistant. The glaze has a textured finish, with striking and on-trend colours. Each shape is stocked in 4 colours.
- **Urban**—this high quality, vitrified porcelain range is aptly named, with modern, textured colours perfect for the inner city chic food service. The communal white rim accents make this range easy to mix & match into a unique array of colour placements.
- **Soho**—an industry innovation, this neo-Asian collection combines vitrified porcelain traditional shapes with a new, edgy, industrial finish. Combined with the textured rim, this collection is the perfect artisan’s canvas for cutting-edge, new-age cuisine.
- **Brew**—colour and design alters perception of taste. Within our new BREW coffee crockery range, we offer multiple colour and glaze styles in traditional shapes to stimulate every palate.

## Entry level options

- **Fairway & Royal Porcelain**—economical vitrified porcelain offering a wide range of good quality product selection.
- **Roma**—for white, black, red, teal, grey and brown espresso coffee cups and saucers.
- **Arcoroc Glass**—strong, light and inexpensive.

## Fine china options for the discerning diner

- Rosenthal & Thomas porcelain & Bone China
- Wedgwood
- Royal Doulton

## Cleaning

Regular soaking of crockery with “Cutlery and Crockery Reviver” (refer to HCK26 in the cleaning section) will control staining and maintain your crockery in its best possible condition.

**ACCOLADE**

**ACCOLADE CROCKERY**

Accolade—commercial china from the famous porcelain manufacturing region of Thailand, where for over 50 years they have produced an alumina-rich body which provides increased strength to resist chipping. Some plates and bowls are pin fired resulting in the benefits of a fully glazed under-belly, are lightweight and have a slim profile for reduced storage space.

Our Accolade range satisfies a wide variety of applications—from the Classic styles designed for banqueting and functions, through to contemporary fine-dining options.

## ACCOLADE VANILLA

Code	Description	Carton Qty
------	-------------	------------

The **Vanilla Range** by Accolade gives us that feeling of authentic warmth with a natural creamy matt finish and dusted with a light sprinkle.

This range has an extensive selection of tried and tested shapes that work in so many different applications and are becoming increasingly popular.

Your Plate is your canvas and this one is perfect in its unique soft classy design, that is full of life.

The pieces are made in the same durable materials as our classic Accolade and fully vitrified for confidence in commercial use and has proven durability. This along with the alumina and pin firing result in exceptional quality and strength.

# Temuka Pottery

Since 1931.

Temuka Pottery is a reliable, hardworking New Zealand icon that has stood the test of time. Made in New Zealand combining the use of simple machines with the skill of artisan potters to produce unique pieces with an emphasis on individuality.

Our current ranges are designed to meet the needs of New Zealand's hospitality industry.

Purchase our latest release exclusively through Southern Hospitality.

 Temuka  
Pottery

## TEMUKA POTTERY

Code	Description	Carton Qty
------	-------------	------------

Potters' Mark bowls and plates are made from hand-thrown original models. The potter's finger marks are embossed in the clay as they process the product on the potter's wheel. These marks create hold points, runs and pools in the hand-applied glaze finish.

**Potter's Mark in Sea Spray and Blue Mist**

Sea Spray celebrates the beautiful erratic whitecaps we are often privileged to see on our western shores. A stunning reactive glaze that speaks of a depth and wildness while showcasing an exceptional level of class and craftsmanship. Also complimented by a selection of high sided Scandi pieces.

Blue Mist brings in the cool and vibrant blues of the summer sky. A beautiful contrast to Sea Spray and the perfect mix and match option, showcasing a few feature pieces to add a bold statement to your table.

## TEMUKA POTTERY

Code	Description	Carton Qty
<b>Terra</b>		
Our Wave style features undulating circular corrugations formed in the clay. Layered glazes respond to these ribs, throwing highlights and character where it's pulled from the edge during firing, creating the appearance of a rim around the plate or bowl. This pooling of the thick glaze produces the random and unique characters of hand-crafted ceramics.

### Potter's Mark in Leather

Potter's Mark bowls and plates are made from hand-thrown original models. The potter's finger marks are embossed in the clay as they process the product on the potter's wheel. These marks create hold points, runs and pools in the hand-applied glaze finish. The glaze is designed to highlight the form of the Potter's Mark Collection.

## BARALEE POTTERY

Code	Description	Carton Qty
------	-------------	------------

**Baralee Pottery**

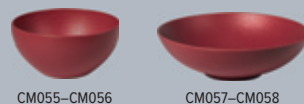

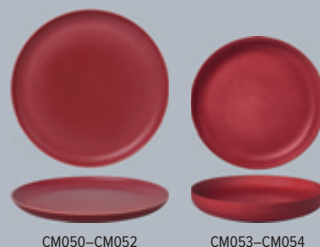

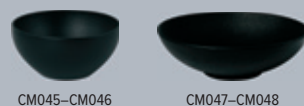

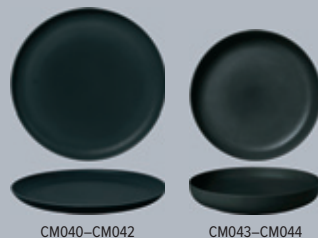

Commercial Porcelain made in Thailand, fired at over 1200°C. Styled with a Fusion theme. Includes a fine edge, but is chip resistant. The white range has a gloss coating, while the glaze of the coloured ranges has a textured finish, with striking and on-trend colours.

**Baralee Sand Jet Black**
