GLASSWASHERS/DISHWASHERS

| Code | Description |
|------|-------------|
|------|-------------|

A Type Premium Range

Fully featured, fully insulated, powerful machines.

- Intuitive electronic controls with clear communicative display
- Self diagnostics and inbuilt energy saving systems
- Assured final rinse with break tank and rinse booster pump
- Reverse Osmosis (RO) compatible for polish free results
- Low 2.4 litres or less hot water consumption for low operating cost
- Full thermal and acoustic insulation for a cooler, quieter operating environment
- Enhanced filtration with active waste removal
- Hands free auto drain—no need to remove drain upstands
- QuikConnect service connections for easy installation
- Dual Chemical pumps and drain pump fitted standard
- Soft start function to protect washware
- Multicycle options for varying soil levels
- Reliable results through independent robust stainless steel wash and rinse arms with precision stainless jets

Starline AL Premium Passthrough Dishwasher

EW2

- Cleans up to 1620 plates per hour
- 40, 60, 90 second and manual cycles
- 430mm high wash chamber clearance
- Supplied with 2 x 500mm dishracks, cuprack, cutlery basket and cutlery container
- 750W x 750D x 1530mmH
- 15A 3 phase for fast recovery between cycles

Starline UL Premium Undercounter Dishwasher

EW15

- Cleans up to 1500 glasses per hour/1080 plates per hour
- 1, 2, 3 minute and manual cycles
- 350mm high wash chamber clearance
- Supplied with 500mm dishrack, cuprack & cutlery container
- 600W x 635D x 845mmH
- 15A plugset—easily converted to 25A single phase or 15A 3 phase for fast recovery between cycles

Starline GL Premium Undercounter Glasswasher

EW4

- Cleans up to 960 glasses per hour/840 plates per hour
- 1, 2, 3 minute and manual cycles
- 350mm high wash chamber clearance
- Supplied with 450mm dishrack, cuprack & cutlery container
- 535W x 560D x 835mmH
- 15A plugset—easily converted to 25A single phase or 15A 3 phase for fast recovery between cycles

GLASSWASHERS/DISHWASHERS

| Code | Description |
|------|-------------|
|------|-------------|

M Type Professional Range

M-Type dishwashers offer a perfect balance of reliability and performance.

- Intuitive electronic controls with a clear communicative display
- Self Diagnostics and inbuilt energy saving systems
- Assured final rinse with break tank and rinse booster pump
- Reverse Osmosis (RO) compatible for spot free results
- Double filtration system via stainless steel scrap trays and separate wash inlet filter
- Low 2.4 litres or less hot water consumption for low operating cost
- Insulated door fitted on undercounter machines
- QuikConnect service connections for easy installation
- Dual Chemical pumps and drain pumps fitted standard
- Soft start function to protect washware
- 1, 2, 3 minute and manual cycle options for varying soil levels
- Reliable results through robust stainless steel wash and rinse arms with precision stainless jets

Starline M2 Professional Passthrough Dishwasher

EW8

- Cleans up to 1500 glasses per hour/1080 plates per hour
- Retrofit to 600 or 640 bench gap
- 430mm high wash chamber clearance
- Supplied with 2 x 500mm dishracks, cuprack and 2 x cutlery containers
- 705W x 720D x 1530mmH
- 25A single phase or 15A 3 phase for fast recovery between cycles

Starline UD Professional Undercounter Dishwasher

EW11

- Cleans up to 1500 glasses per hour/1080 plates per hour
- 350mm high wash chamber clearance
- Supplied with 500mm dishrack, cuprack and a cutlery container
- 570W x 600D x 840mmH
- 15A plugset—easily converted to 25A single phase or 15A 3 phase for fast recovery between cycles

Starline GM Professional Undercounter Glasswasher

EW6

- Cleans up to 960 glasses per hour/840 plates per hour
- 290mm high wash chamber clearance
- Supplied with 450mm dishrack, cuprack and cutlery container
- 500W x 555D x 860mmH
- 15A plugset—easily converted to 25A single phase or 15A 3 phase for fast recovery between cycles

GLASSWASHERS/DISHWASHERS

| Code | Description |
|------|-------------|
|------|-------------|

Heat Recovery Models (C)

Equipped with Washtech C3 Condensers, the ALC, M2C and M1C provide the same great wash results as their respective counterparts while using just 2.4 litres of COLD water per cycle.

- The C3 Condenser is a full heat recovery unit which preheats cold water supply, significantly reducing steam emissions and energy consumption, resulting in over \$1k per annum in power savings for a busy restaurant.
- Certified for installation with no extraction canopy in many situations.

Starline ALC Premium Passthrough with Heat Recovery Unit

EW28

- Cleans up to 1620 plates per hour
- 430mm high wash chamber clearance
- Supplied with 2 x 500mm dishracks, cuprack, cutlery basket and cutlery container
- 750W x 750D x 2020mmH
- 15A 3 phase power for fast recovery between cycles

Starline M2C Professional Passthrough with Heat Recovery Unit

EW17

- Cleans up to 1500 glasses per hour/1080 plates per hour
- Retrofit to 600 or 640 bench gap
- 430mm high wash chamber clearance
- Supplied with 2 x 500mm dishracks, cuprack and 2 x cutlery containers
- 705W x 720D x 2030mmH
- 15A 3 phase power for fast recovery between cycles

Starline M1C Professional Passthrough with Heat Recovery Unit

EW18

- Lighter, more convenient 450mm racks
- Cleans up to 960 glasses per hour/840 plates per hour
- 430mm high wash chamber clearance
- Low operating cost with use of only 2.4 litres per cycle water
- Supplied with 450mm dishrack, cuprack and cutlery container
- 630W x 650D x 2020mmH
- 15A 3 phase power for fast recovery between cycles

*Annual cost savings compared with standard equivalent models, assuming 20 cycles per hour, 8 hours per day/360 days use per annum usage at an average power cost of \$0.20/kWh.

Polish Free Systems

Reverse Osmosis Unit for use with a suitable dishwasher or glasswasher along with correct chemicals and operating procedures to provide polish free glassware (and cutlery).

ROS

EW29

- Compatible with all Professional and Premium Series dishwashers and glasswashers
- 148W x 545D x 520mmH
- 10A plugset supplied

GLASSWASHERS/DISHWASHERS

| Code | Description |
|------|-------------|
|------|-------------|

X Type Signature Range

Effective and robust—simple performance.

- Updated electromechanical controls
- Digital temperature gauges for easy HACCP reporting
- QuikStart cycle extends wash if necessary while rinse water heats
- Durable stainless steel construction
- QuikConnect service connections for easy installation
- Dual Chemical pumps and drain pumps fitted standard
- Innovative weir system retains fresh hot rinse and flushes cooler water

Starline GLV High Performance Compact Dishwasher

EW5

- High Performance Compact Dishwasher
- Cleans up to 960 glasses per hour/840 plates per hour
- 120 and 150 second cycles
- Compatible with 435mm and 450mm racks
- Reliable results through robust stainless steel wash and rinse arms with precision stainless jets
- Double filtration system via scrap trays and separate wash inlet filter
- 2.6 litres hot water consumption for low operating cost
- Supplied with 450mm dishrack, cuprack and cutlery container
- 535W x 595D x 840mmH
- 25A single phase for fast recovery between cycles

Starline XU Signature Undercounter Dishwasher/Glasswasher

EW14

- Cleans up to 1500 glasses per hour/1080 plates per hour
- 1 and 2 minute glasswashing and dishwashing cycles
- 350mm high wash chamber clearance
- 2.6 litres hot water consumption for low operating cost
- Light weight composite arms
- Supplied with 500mm dishrack, cuprack and cutlery container
- 575W x 600D x 840mmH
- 15A plugset supplied

Starline XG Signature Undercounter Glasswasher

EW20

- Cleans up to 540 glasses per hour
- 1 minute glasswashing cycle
- 290mm high wash chamber clearance
- 1.5 litres hot water consumption and with drain pump
- Light weight composite arms
- Supplied with standard 435mm glassrack
- 500W x 515D x 780mmH
- 15A plugset supplied

GLASSWASHERS/DISHWASHERS

| Code | Description |
|------|-------------|
|------|-------------|

XL Signature Heavy Duty Passthrough Dishwasher

EW43

- Cleans up to 1620 plates per hour
- 40, 60, 90 second cycles
- Powerful 1.5 horsepower wash pump for superior cleaning of heavily soiled items
- 430mm high wash chamber clearance
- Reliable results through robust stainless steel wash and rinse arms with precision stainless jets
- Double filtration system via scrap trays and separate wash inlet filter
- 2.6 litres hot water consumption for low operating cost
- Supplied with 2 x 500mm dishracks, cuprack, cutlery basket and cutlery container
- 755W x 710D x 1530mmH
- 15A 3 phase for fast recovery

Starline XP Signature Passthrough Dishwasher

EW42

- Cleans up to 1500 glasses per hour/1080 plates per hour
- 1, 2, 3 minute cycles
- 430mm high wash chamber clearance
- Light weight composite arms
- Double filtration system via scrap trays and separate wash inlet filter
- 2.6 litres hot water consumption for low operating cost
- Supplied with 500mm dishrack, cuprack and cutlery container
- 730W x 710D x 1530mmH
- 15A plugset—easily converted to 25A single phase or 15A 3 phase for fast recovery

Starline M1 Compact Signature Passthrough Dishwasher

EW7

- Cleans up to 960 glasses per hour/840 plates per hour
- Lighter, more convenient 450mm racks
- 2.6 litres hot water consumption for low operating cost
- Light weight composite arms
- Requires a bench gap of just 510mm and is compatible with 600mm deep benching
- Supplied with 450mm dishrack, cuprack and cutlery container
- 650W x 650D x 1530mmH
- 15A plugset supplied

WAREWASHERS

| Code | Description |
|------|-------------|
|------|-------------|

Standard Warewasher Range

A range of front loading and passthrough warewashers—with a variety of wash chamber sizes.

- Robust heavy gauge stainless steel construction
- Simple electromechanical controls for long service life
- 2, 4, 6 minute cycles
- Fast recovery with powerful rinse elements
- Low operating cost with minimal water consumption
- 2 horsepower wash pumps for superior cleaning of heavily soiled items
- Robust stainless steel wash and rinse arms with precision stainless jets

Heat Recovery Models (C)

All the features of the Standard Warewasher Range plus.

- A full heat recovery unit which preheats cold water supply, significantly reducing the steam emissions and energy consumption
- Operates on cold water supply for enhanced energy efficiency and lower cost water treatment when required
- Assured final rinse with break tank and rinse booster pump
- 2.5, 4.5, 6.5 minute cycles
- Digital temperature gauges for easy HACCP reporting

Starline PW1 / PW1C High Efficiency Potwasher

EW49 / EW31

- 3.0 litres hot water consumption / 3.0 litres or less cold water consumption
- Wash chamber 565W x 595D x 750mmH
- Hanging rail with adjustable tines for baking trays, whisks, ladles and other items
- Washes up to 10x baking trays (up to 25mm deep)
- Supplied with 500 dishrack, cuprack, cutlery basket and cup cover
- 680W x 780D x 1790mmH / 680W x 780D x 2065mmH
- 15A 3 phase power / 25A 3 phase power

Starline PW2 / PW2C Wide Body Warewasher

EW9 / EW32

- Dual wash pumps for superior cleaning of heavily soiled items
- 4.0 litres hot water consumption / 4.0 litres cold water consumption
- Large internal chamber 1100W x 650D x 750mmH
- Hanging rail for whisks, ladles and other items (optional tines available for baking trays)
- Washes up to 20x baking trays (up to 25mm deep)
- Now supplied standard with baking tray rack guides
- Pull out stainless steel grid for each of loading/unloading
- Supplied with 500 dishrack, cuprack, cutlery basket and cup cover
- 1235W x 860D x 1790mmH / 1235W x 860D x 2065mmH
- 30A 3 phase power for both models

WAREWASHERS

| Code | Description |
|------|-------------|
|------|-------------|

Starline AL8/AL8C High Efficiency Passthrough Warewasher

EW3 / EW30

- 3.0 litres hot water consumption / 3.0 litres cold water consumption
- Wash chamber 700W x 540D x 650mmH
- Full access to wash chamber via 3 sided door
- Supplied with special 600 x 500mm dishrack, cuprack, cutlery basket and cutlery container
- Also accepts regular 500mm racks
- 905W x 760D x 1695mmH / 905W x 760D x 2010mmH
- 25A 3 phase power for both models

Starline PW3/PW3C Versatile Passthrough Machine

EW10 / EW33

- Heavy racks can be slid in and out of the machine instead of lifted
- Dual wash pumps for superior cleaning of heavily soiled items
- 4.0 litres hot water consumption / 4.0 litres cold water consumption
- Large internal chamber 1050W x 640D x 650mmH
- Hanging rail for whisks, ladles and other items
- Pull out stainless steel grid for ease of loading/unloading
- Loads 2 x 500mm racks
- Supplied with 500 dishrack, cuprack, cutlery basket and cup cover
- 1330W x 920D x 1750mmH / 1305W x 920D x 2065mmH
- 30A 3 phase power for both models

WASHTECH

**A polished
glasswashing
solution.**

Use Starline polish-free solutions for stunning results with no manual polishing.

Compatible with Starline GM, GL, UD, UL, MIC, M2, M2C, AL and ALC dishwasher models.

RACK CONVEYORS

| Code | Description |
|------|-------------|
|------|-------------|

Standard Conveyor Range Features

A comprehensive range of powerful and efficient rack conveyors.

- Powerful wash via removable upper and lower stainless steel wash arms
- Low temperature deactivation to ensure HACCP hygiene and regulatory compliance
- Powerful drive with safety clutch and optional bench stop switch
- Double side drive system which enables easy access to the wash tanks
- Vent hoods fitted standard allowing for easy bench connection
- Full width, easily removable wash filter trays
- Heavy duty stainless steel construction
- Simple electromechanical controls for ease of service
- Modular range includes options to allow installation in minimal area
- CAD design service for layout options

High Performance CDe Range

All the features of the Standard Warewasher Range plus.

- A full heat recovery unit which preheats cold water supply, significantly reducing the steam emissions and energy consumption
- Operates on cold water supply for enhanced energy efficiency and lower cost water treatment when required
- Starline CDe rack are certified by SEED for installation without the need of an extraction canopy in most situations
- A three or four EcoRinse system reduces rinse water consumption to a frugal 180 or 120 litres per hour
- The EcoRinse system improves rinse results through multiple rinse recirculation stages
- Full thermal and acoustic insulation for a cooler, quieter operating environment

Starline CD120 / CDe120

- 120 racks per hour
- 300 litres hot water consumption / 180 litres cold water consumption
- 1510W x 765D x 1445mmH / 1760W x 815D x 1590mmH
- 25A 3 phase power / 35A 3 phase power

Starline CD180 / CDe180

- 180 racks per hour
- 300 litres hot water consumption / 180 litres cold water consumption
- 2110W x 765D x 1445mmH / 2110W x 815D x 1590mmH
- 28A 3 phase power / 35A 3 phase power

Starline CD240 / CDe240

- 240 racks per hour
- 300 litres hot water consumption / 120 litres cold water consumption
- 2710W x 765D x 1445mmH / 2710W x 815D x 1590mmH
- 32A 3 phase power / 35A 3 phase power

| HG124 | 49 Div, 500 sq base, 82mm high |
| HG125 | 49 Div, 500 sq standard, ext 40mm high |

GLASS RACK SIZING GUIDE

1. Determine which width of the rack divisions you need.
 - a. Identify which part of the glass is the widest. See the table below to establish which division it best fits into. This determines the division size of the rack required.

| Max diameter | Divisions |
|--------------|-----------|
| 62mm | 49 |
| 73mm | 36 |
| 88mm | 25 |
| 112mm | 16 |

2. Determine the height required.
 - a. Choose the tallest glass and measure against the ruler on this page.
 - b. See height marks of various rack setups on the ruler.
